# Application Guidelines

For Self-Supported International Students Applying to the  
Integrated Science Program, Undergraduate Program

Due to the impact of the novel corona virus, there is a possibility that the student selection will be done in an alternative way to that written in this Application Guidelines, and there is a possibility it may be postponed or cancelled. In addition, application procedures and application documents are subject to change. Information will be updated on our website, <https://www.oia.hokudai.ac.jp/isp/how-to-apply/>, as necessary.

Furthermore, please prepare and collect application documents such as the Certificate of (Expected) Graduation and transcripts, etc. as early as possible in case it becomes hard to do so because of the pandemic or school lockdowns.

Hokkaido University

## **Admission Policy**

Hokkaido University is one of the leading research-intensive universities in Japan with departments ranging from the sciences to the humanities. It was established in 1876 as the Sapporo Agricultural College. It is one of Japan's prestigious seven "former Imperial Universities" and today is a leading national university. During its long history, Hokkaido University has cultivated academic autonomy and freedom based on four basic philosophies relating to education and research: Frontier Spirit, Global Perspectives, All-round Education, and Practical Learning.

Guided by these philosophies, the university's mission is to be a place where knowledge is created, disseminated, and applied in the new century, thereby contributing to the development of human welfare, science, culture, and society through education and research.

The university strives to offer undergraduate education that teaches students to participate in society as global citizens, to acquire the academic and communication skills that will give them a solid foundation in their professional lives, and to study their fields of expertise from a broad academic perspective. The university aims to make its graduates capable of exercising sound judgment and leadership as exemplary citizens possessing high-quality and internationally-recognized academic credentials. In addition, the university nurtures students so that they may take leading roles as professionals in their fields and actively promote academic creativity.

Hokkaido University has built upon this tradition and its history since it was founded and recruits talented students from throughout Japan and the rest of the world. We use an advanced selection system to seek out students who have the academic ability needed to pursue an undergraduate education, such as basic knowledge, basic skills, mathematical ability, linguistic ability, depth of understanding, and comprehension skills. We strive to recruit students who have the qualities needed to pursue studies at the university level and beyond, such as problem-solving skills, creativity, a sense of ethics, flexible thinking, communication ability, the ability to think theoretically, leadership skills, integrity, and the desire to learn.

# **Integrated Science Program Admission Policy**

Students We Are Seeking:

(1) Knowledge and Comprehension

Demonstrate basic knowledge in various subjects offered in secondary education and takes the initiative in learning natural sciences.

(2) Thinking Skills, Decision-Making Skills, and Creativity

Aspire to create values in their field of expertise and the society. Science is an academic discipline that explores the natural world through observation and experiments, and critical thinking and decision-making skills are necessary to select the best method of explanation.

(3) Written Expression and Communication Skills

Demonstrate a fundamental grasp of tasks and capable of expressing their understanding logically in written form.

(4) Initiative and Perseverance

Show intellectual curiosity in broader fields and takes the initiative to solve problems without being satisfied with existing knowledge or understandings. You may face many setbacks before making a new discovery. Perseverance is also a key quality.

(5) Respect for Diversity and Collaboration

Demonstrate an ability to clearly communicate their ideas to others who think differently without becoming overly emotional. Being capable of successfully completing their duties and actively contributing to a team while respecting others.

## **Expected Proficiency and Skill Level before Enrollment**

The Integrated Science Program (ISP) offers integrated courses in social sciences and natural sciences. Applicants are expected to have broad knowledge in subjects offered in secondary education such as language and literature, English language, mathematics, and social sciences. In the ISP, an early graduation system allows students to graduate in three years and six months, and all students study mathematics, physics, chemistry, and biology at the post-secondary level in the first six months on the program. Therefore, prospective students are expected to have acquired basic knowledge in physics, chemistry, and biology in addition to mathematics before completing their secondary education.

## Purpose of Developing Human Resources

In the era of Society 5.0, individuals who create value in academic research and in society are much sought after. Not just producing ideas, forming organizations or groups to turn those creative ideas into reality is equally important. We aim to nurture individuals who contribute to value creation in society.

In our General Education Courses, which offer integrated humanities and sciences courses, students learn how to work on problems in society with no suitable solutions. They also learn business skills necessary for value creation in the generic skills courses. Through research in each of the natural science disciplines, we cultivate creativity as well as critical skills and capabilities necessary for a professional in academic or applied research.

## Selection Policy

In the First Stage selection, knowledge and comprehension in subjects offered in secondary education are reviewed through grades in secondary school, standardized test scores and a letter of recommendation.

In the Second Stage selection, thinking and self-expression skills, communication skills in English, initiative as well as basic knowledge and comprehension in mathematics and natural sciences are reviewed through an interview.

**At Hokkaido University, applicants must register online to take the entrance exam for the Integrated Science Program.**

**Visit the online registration site for further instructions: <https://e-apply.jp/e/hokudai-gakubu-eng/>**

**To apply, you must have the following:**

- (1) Access to a printer (to print out necessary documents)**
- (2) A valid e-mail address (to receive confirmation e-mails)**

**Please note that registering online does not constitute the completion of application procedures.**

**For details regarding application procedures, see pages 4-11.**

## **1. Purpose and Objective**

The Integrated Science Program (ISP) is a cross-disciplinary educational program for international students interested in pursuing a degree in sciences. The program fundamentally consists of a four-year Bachelor's degree and a two-year Master's degree. Hokkaido University has also implemented an advanced graduation initiative, meaning that highly motivated and capable students will have the opportunity to graduate from the Bachelor's and Master's components in 3.5 and 1.5 years respectively.

The objective of ISP at Hokkaido University is to instruct and nurture students to be world leaders in a wide variety of disciplines such as those rooted in the natural sciences, applied sciences and business-oriented careers. The foundation of the program is based upon building expertise and a robust knowledge based in the core sciences, and also include elements of the liberal arts and business studies to provide students with a versatile and well-rounded education to pursue innovation in their future endeavors.

## **2. Applicants We Are Seeking**

The ISP is best suited for prospective students that exhibit:

- A passion for studying a broad range of subjects across the natural sciences;
- An inclination to major in a discipline of the natural sciences (physics, chemistry or biology);
- Enthusiasm to live and study in a multicultural/multilingual environment;
- A drive to contribute to the wider global society by building a future career as an international specialist or researcher with a rich background knowledge based in the natural sciences.

## **3. School Affiliation**

During the Bachelor's component, the students will be affiliated with a department within the School of Science: Department of Physics, Chemistry, and Biological Sciences (Division of Biology). Following the completion of BSc degree program, students will move on to the Master's program which will be hosted by one of the many graduate schools at Hokkaido University (e.g., Graduate School of Science, Chemical Science and Engineering, Life Science, Engineering, Environmental Science, Agriculture). Students will select the school themselves, with each graduate school requiring an entrance examination for admittance.

## 4. Student Intake

Students are selected as indicated in the chart below. Applicants choose one of the selection categories at the time of application.

Selection Category	Student Intake	Overview
Selection for Physics-oriented Students	Several students	Applicants will be assessed over their knowledge of natural sciences and mathematics with a focus on physics in the Second Stage selection
Selection for Chemistry-oriented students	Several students	Applicants will be assessed over their knowledge of natural sciences and mathematics with a focus on chemistry in the Second Stage selection.
Selection for Biology-oriented students	Several students	Applicants will be assessed over their knowledge of natural sciences and mathematics with a focus on biology in the Second Stage selection

Six months after admittance, students will be assigned to a specific department based upon individual's interest, grades, and credits accumulated during that time.

## 5. Date of Program Admission

## 6. Applicant Qualifications and Requirements

(1) Nationality:

Individuals who have Japanese citizenship or Japanese permanent resident status are not eligible to apply.

(2) Basic Qualifications:

Applicants must meet one of the following criteria:

1. They have completed 12 years of school education in a country other than Japan or expect to have graduated by September 30, 2022 (see Note 1 on page 3 and Note 3 on page 4).
2. They are individuals who are equivalent to those who meet qualification 1 above and have been designated by the Japanese Minister of Education, Culture, Sports, Science and Technology (see Note 2 on page 3).
3. They have received or expect to have received an International Baccalaureate Diploma in a country other than Japan by September 30, 2022, awarded by the International Baccalaureate, a foundation pursuant to the Swiss Civil Code.
4. They have received an *Abitur*, a degree recognized as a qualification for university admission throughout Germany.

5. They hold a *baccalauréat*, a degree recognized as a qualification for university admission in France.
6. They have General Certificate of Education (GCE) Advanced Level's (A Levels) recognized as a qualification for university admission in the UK.
7. They have completed 12 years of school education at a Japanese educational institution for foreign nationals that has accreditation from the Western Association of Schools & Colleges (WASC), the Association of Christian Schools International (ACSI) or the Council of International Schools (CIS), or expect to have graduated by September 30, 2022. However, in this case they will have been enrolled at a school for at least two consecutive years including their final school year.

*Note 1:* The "12 years of school education" includes coursework completed pursuant to Japan's School Education Act.

*Note 2:* "Individuals who are equivalent to those who meet qualification 1 above and have been designated by the Japanese Minister of Education, Culture, Sports, Science and Technology" include the following:

- A. Individuals who have passed a national exam in a country other than Japan to determine whether they have the same level of academic ability as an individual who has completed 12 years of school education in that country (including an exam equivalent to the national exam), and will be at least 18 years of age by September 30, 2022.
- B. Individuals who, after completing a level of school education in a country other than Japan equivalent to a Japanese high school education (including those who have passed an exam in that country to determine whether they have academic ability equivalent to those of a high school graduate), have completed preparatory coursework for admission to a Japanese university at one of the educational facilities designated by the Japanese Minister of Education, Culture, Sports, Science and Technology (see Table 1 on page 20).
- C. Individuals who have completed or expect to have completed a foreign education equivalent to a Japanese high school education (and deemed to be equivalent to 12 years of school education completed in that country) at an institution located in Japan and recognized under the educational system of that country by September 30, 2022 (see Table 2 on page 25).
- D. Individuals who, after completing a foreign education equivalent to a Japanese high school education (excluding those cases in C above) at an institution located in Japan and recognized under the educational system of that country, have completed preparatory coursework for admission to a Japanese university at one of the educational facilities designated by the Japanese Minister of Education, Culture, Sports, Science and Technology (see Table 1 on page 20 and Table 3 on page 28).
- E. Individuals who have completed a level of school education in a country other than Japan equivalent to a Japanese high school education (and deemed to be equivalent to 11 years or more of school education completed in that country and fulfill the requirements designated by the Japanese Minister of Education, Culture, Sports, Science and Technology) at one of the

educational facilities designated by the Japanese Minister of Education, Culture, Sports, Science and Technology, or expect to have graduated by September 30, 2022. (see Note 3 on page 4).

*Note 3:* Those who fulfill Basic Requirement 1 or 2 (Note2-E) above must have been enrolled at a school outside Japan for at least two consecutive years including their final school year.

### (3) English-Language Requirement:

Applicants must meet one of the following conditions:

1. They speak English as a native language, or have received four years or more of their secondary education (at junior or senior high school, etc.) or higher education (at university or college) in English as their primary language of instruction.

*Note:* Having learned English as a foreign language for four years or more does not satisfy the above requirement.

2. They have achieved the following scores in TOEFL-iBT, TOEFL-iBT Home Edition, IELTS or TOEIC L&R if their native language is not English, or if they have not received four years or more of their secondary education or higher education in English:

- TOEFL-iBT (Test Date Scores ('My Best Scores' will NOT be accepted)): 79 or higher
- TOEFL-iBT Home Edition (Test Date Scores ('My Best Scores' will NOT be accepted)): 79 or higher
- IELTS (Academic Module): 6.0 or higher
- TOEIC L&R: 730 or higher

*Note:* Test results must be from within two years of the online registration deadline.

### (4) Other

Applicants must submit their score of standardized examinations not already listed in (2) above (e.g. SAT, ACT), if there is such examination for university admission in their own country.

In addition, applicants must submit a copy of their score reports or a copy of Examination Voucher, if applicants took examinations on science and mathematics (course 2) in the Examination for Japanese University Admission for International Students (EJU) by Independent Administrative Institution Japan Student Services Organization.

## 7. Application Procedures

### (1) Application Period

- Online registration period: November 15 (Mon), 2021, from 10:00 a.m. (Provisional) – November 30 (Tue), 2021, by 5:00 p.m.
- The required application materials must be also sent by post after registering online to arrive no later than 5:00 p.m., December 16 (Thu), 2021.

Dates and times above are in Japan Standard Time (JST).

*Note:* The application is considered complete once all documents have been received and accepted as valid/authentic by the university. Please note that completion of the online registration form alone does not constitute the completion of the application process.

## (2) Application Materials

### *Instructions for Preparing Application Documents*

- Before starting the online registration, prepare and collect application documents. Arrange for your English test score, SAT score, ACT score etc. to be sent to the Admission Center directly.
- Only ORIGINAL documents will be accepted unless stated otherwise. Certificates and transcripts require the official stamp of the school/institution or the signature of the school principal/head of the institution. Photocopied documents without an official seal/signature will not be accepted.
- Application materials that have been received will not be returned for any reason. If you have only one copy and for some reason cannot submit the original one, submit a certified true copy verified by the school principal/head of the institution.
- All the application documents must be prepared in English or Japanese. For documents in other languages, attach original English or Japanese translations prepared by official organizations such as your school, a language school, an embassy etc.

### (3) How to Apply

#### 1. Online Registration

- a. Visit the online registration site (<https://e-apply.jp/e/hokudai-gakubu-eng/>).

*Notes:* Be sure to read all instructions and notes before completing the online registration. To use this website, you will need access to a printer to print out the necessary documents and an e-mail address that can be used to receive the application fee payment completion e-mail. Be sure you have access to a printer and a PC e-mail address ready before starting the application procedures.

- b. Select and enter the necessary information in accordance with the on-screen instructions.

## 2. Select the Payment Method and Pay the Application Fee

Make your payment by following the instructions on the payment screen shown after your online registration has been submitted. The information needed for making a payment and the payment procedures differ according to the payment method, so be sure to follow the on-screen instructions.

- a. Payment by credit card: Enter your credit card number, expiration date, cardholder's name, and security code.
- b. Post Office/bank ATM, online banking or convenience store payment (in Japan only).

*Notes:*

Post Office/bank ATM: Bring the payment code, application number, and confirmation number issued after you select your preferred payment method and make your payment at a Pay-easy-compatible ATM.

Convenience store: Bring the application number, confirmation number and online payment number shown on the payment instructions, and make your payment at a convenience store (payments can be made at Seven-Eleven, Lawson, Family Mart, Ministop, Daily Yamazaki and Seico Mart in Japan.).

Online Banking: Follow the instructions shown on the screen.

- c. ChinaPay: On the online payment screen of any bank, enter the payment information, such as your bank account number, expiration date, and password, to make your payment.

## 3. Mailing Your Application Materials

Print the application form (PDF) generated by the online registration site. The web URL will also be sent to you in the confirmation email sent after completion of your application fee payment. Place the application form and all other necessary documents (see pages 5–9) into an envelope. Send it by registered mail (use EMS, DHL, FedEx and UPS etc. from overseas) so that it arrives at the university by the deadline for submitting application materials (December 16, 2021).

*Note:* Applications that are not received by the deadline for submitting application materials will not be processed, so be sure to leave enough time for your materials to arrive by post. Application materials delivered by hand are not accepted.

Application procedures are not complete until all of your application materials (including the test results certificate mailed directly from the institution that administered the exam) have been received and accepted as valid/authentic by the university. Please be aware that registering to apply online does not constitute the completion of application procedures.

## 4. Notification of Your Examination Number

After the online registration has been submitted, individuals whose materials have been received by the university and who have completed the application process will receive an e-mail message notifying them of their examination number. The message will be sent to the applicant's registered e-mail address.

**(4) Important Application Information**

1. If your application is incomplete or includes any mistakes, it will not be accepted, so be sure that everything is filled out and that there are no errors in your application.
2. If your address changes after applying online, please contact the Admission Center at the address given below.
3. All application materials including original certificates that have been received will not be returned for any reason.
4. If your application is found to have contained falsified information, your offer of a place on the Integrated Science Program will be withdrawn.
5. If you have any questions regarding your application eligibility, please contact the Admission Center before submitting your application materials.

## 8. Preliminary Consultations Regarding Exam-related Issues

Applicants who are expecting to have special needs during either the application process or as students on the program should contact the Admission Center by November 11 (Thu), 2021.

Please be aware that depending on the nature and time frame of your request, we may not be able to make necessary accommodations by the exam date.

Consultations regarding other exam-related and class-related issues are welcome all throughout the year.

## 9. Selection Methods

Students will be selected based on a comprehensive evaluation of their application materials and their interview results.

### 1. First Stage Selection

Applicants are first screened based on their application materials. Those who have passed the First stage selection process will proceed to the Second Stage Selection.

Scoring	
Transcripts, Standardized test results certificate for national exams, other relevant exams and Letter of Recommendation, etc.	100 points

### 2. Second Stage Selection

We will conduct interviews via Skype to those who have passed the First stage selection process and they will be considered for admission based on a comprehensive evaluation. Questions will be asked in order to confirm applicant's academic ability.

Scoring	
Interview	100 points

- Topics/Subjects which are asked in the interviews

Selection Category	Topics/Subjects	
	Main Subject	Other Subjects
Selection for Physics-oriented Students	Physics	Chemistry, Biology and Mathematics
Selection for Chemistry-oriented students	Chemistry	Physics, Biology and Mathematics
Selection for Biology-oriented students	Biology	Physics, Chemistry and Mathematics

\* Main Subject: Applicant's advanced knowledge and comprehension on this subject will be confirmed.

\* Other Subjects: Applicants will be asked questions on some subjects here based on their learning backgrounds and experiences.

## 10. Notifications of First Stage Selection

The results will be posted on the university's website, <https://www.oia.hokudai.ac.jp/isp/>, by 10:00 a.m. on February 15, 2021. Inquiries into the results/status of the selection process via phone or e-mail will not be answered.

## 11. Dates and Times of Second Stage Selection (Interviews)

Interviews will be conducted via Skype during the period: February 21 (Mon), 2022 – March 3 (Thu), 2022.

Applicants who have passed the First stage will be informed of the interview schedule for the Second stage of the selection process.

## 12. Admission Notifications

(1) Schedule

March 23 (Wed), 2022 (provisional).

(2) Notification method

We will post the examination numbers of successful candidates on the university's website, <https://www.oia.hokudai.ac.jp/isp/>, and will send the "Notification of Acceptance" and documents

for enrollment procedures to only successful candidates via post. These will be sent to the “Delivery address of Examination results” included on the submitted application form.

\*Successful candidates for Hokkaido University's Undergraduate Courses, the Modern Japanese Studies Program or International Qualification-Based Admission, who complete the enrollment procedures, will not be accepted into the Integrated Science Program.

### 13. Enrollment Procedures

Period for confirming your intent to enroll on the Integrated Science Program will be late March 2022 (Provisional).

Detailed enrollment procedure information will be provided to successful candidates at a later date.

### 14. Announcement of Additional Successful Candidates

If there is a vacancy, we might accept additional successful applicants. Inquiries into the status of the selection process via phone or e-mail will not be answered.

(1) Schedule

Early April 2022 – June 30, 2022

(2) Notification method

After confirming your intent to enroll on the Integrated Science Program via email, we will send the “Notification of Acceptance” and documents for enrollment procedures via post.

### 15. Enrollment and Tuition Fees

	Enrollment fee	Tuition fees
Integrated Science Program (Bachelor's Degree)	¥282,000	¥535,800 (per year)
Integrated Science Program (Master's Degree)	¥282,000	¥535,800 (per year)

\*The above enrollment and tuition fees are correct as of July 2021. If they are revised before admission or during enrollment, the new amount will apply with immediate effect from the time of revision.

\*We waive the full amount of the enrollment fee for the 2022 academic year, for October 2022 admitted students in the Bachelor's degree.

\*For scholarships pertaining to tuition fees, please refer to “16. Scholarship Programs”.

## 16. Scholarship Programs

(1) Hokkaido University has a scholarship program for students participating in the Integrated Science Program (the Integrated Science Program Scholarship Program). Details of that program are outlined below.

a. Enrollment fee

The university will waive the entire enrollment fee for the Bachelor's degree for those enrolling in October 2022.

b. Tuition fee and Scholarships

(i) ISP Fully Supported students

Applicants with the highest scores in the admission process are offered the status of “ISP Fully Supported Students”. Students under this category will be exempt from tuition fees during the 3.5 years of the Bachelor's course. Moreover, a scholarship of ¥50,000 per month during the initial 3.5 years of the program will be provided. ISP Fully Supported Students' academic performance will be periodically evaluated. In case of unsatisfactory performance or behavior, tuition fee exemption and scholarship support might be terminated.

(ii) ISP Partially Supported students

Applicants with high scores during the admission process will be designated as “ISP Partially Supported Students”. Students under this category will be exempt from tuition fees for the initial 1st year after admission to the Bachelor's course. Moreover, a scholarship of ¥50,000 per month is provided for the initial 1st year after admission. After the conclusion of the initial 1st year, there will be a new selection every year to designate new ISP Partially Supported Students for the following year (or initial 6 months for the fourth-year students).

Notes

- Please note such scholarships are not offered to all students. Designation of ISP Fully Supported Students and ISP Partially Supported Students is determined during the selection process.
- Designated ISP Fully Supported Students and ISP Partially Supported Students will be informed of said awarded status at the time of admission notification.
- The number of supported students by ISP Scholarship Program will comprise roughly half the total ISP students.
- ISP Scholarship Program is expected to be applicable to the Master's degree program.

(2) The Integrated Science Program was selected by the Ministry of Education, Culture, Science, Sports and Technology (MEXT) for the Japanese Government Scholarship Student Priority Placement Program. About 4 students enrolled in October 2022 will be allocated to this program as Japanese Government Scholarship Students (university recommendation, special program)

## Notes

- Please note that such a scholarship is not offered to all students. Designation of nominees for the Japanese Government Scholarship (university recommendation, special program) is determined during the selection process.
  - Designated nominees for the Japanese Government Scholarship (university recommendation, special program) will be informed of said awarded status at the time of admission notification.
  - Application Guidelines for the Japanese Government Scholarship (university recommendation, special program) 2022 will be published by the Ministry of Education, Culture, Science, Sports and Technology in December 2021. The guidelines will also be posted on the university's website, <https://www.oia.hokudai.ac.jp/isp/>.
- (3) In the case that a student is not awarded a scholarship (1) or (2) after admission, they are required to pay the tuition fees in full. However, students may apply for a full, half, or quarter tuition waiver if they are experiencing difficulty in paying their tuition for financial reasons, and have demonstrated outstanding academic performance.
- (4) In addition, scholarship opportunities are offered from a variety of private organizations. Those who wish to apply for such programs may do so after being admitted to the Integrated Science Program. Details on how to apply for these scholarships will be disseminated after enrollment.

## 17. Privacy Policy

- (1) All personal information collected by Hokkaido University will be completely protected in compliance with the Act on the Protection of Personal Information Held by Independent Administrative Agencies, and the EU General Data Protection Regulation (GDPR) pursuant to the Hokkaido University Regulations on Personal Information Management.
- (2) Your name, address, and other personal information you provide to the university through application and individual admissions screening processes will be used solely for ① enrollee selection (application processing and the screening process), ② the announcement of exam results, ③ admission procedures, ④ surveys and research on enrollee selection methods, and ⑤ other related processes.
- (3) The personal information in section (2) above will also be used after enrollment, only for those who pass the exam, for processes related to ① academic affairs (registration, academic guidance), ② student support services (health management, scholarship applications, dorm admission selection, welfare services, etc.), ③ job search support services, ④ tuition, ⑤ use of the university library, ⑥ use of information education facilities, ⑦ confirming your safety and communication in a disaster or emergency situation, and ⑧ public relations (distributing newsletters, information on events, etc.). In addition, as part of efforts to offer more comprehensive courses based on credit exchange agreements with national universities in Hokkaido for the purpose of strengthening liberal arts education, personal information required for the preceding tasks ①, ⑤, ⑥, ⑦ or ⑧

- (4) Personal information contained in exam results will be used to conduct surveys and research on enrollee selection methods.
- (5) For recruiting purposes, when we receive a request for information from the Hokkaido University Frontier Foundation (Kita 8 Nishi 5, Kita-ku, Sapporo, Hokkaido; Tel: +81-(0)11-706-2017) or any of the following university-affiliated organizations listed below, the only personal information listed in section (2) will be provided for use within the scope of that organization's activities.① Faculty Alumni Associations (Kita 8, Nishi 5, Kita-ku, Sapporo, Hokkaido; Tel: +81-(0)11-716-2111), ② Hokkaido University Elm Alumni Association (Kita 9, Nishi 6, Kita-ku, Sapporo, Hokkaido; Tel: +81-(0)11-706-2101).
- (6) The personal information set forth in (2) will be retained for five years from the next academic year of our acquirement.
- (7) The university shall use Article 6, Paragraph 1 (a) of the EU GDPR as the basis for handling personal information and obtaining consent to use it. Personal information will only be used for the purpose for which consent has been given, except when required by laws and regulations.
- (8) The consent set forth in (7) may be revoked at any time. However, this does not affect the legal handling of personal information before consent was revoked.
- (9) Individuals who provide personal information may make the following requests to the university based on the EU GDPR and related laws and regulations:
  - ① Disclosure of personal information, ② Correction of personal information, ③ Erasure of personal information, ④ Limitation of the handling of personal information, ⑤ Objection to the handling of personal information, ⑥ Transfer of personal information to other service providers
- (10) If you have provided personal information within the European Economic Area, you may file an objection to a supervisory authority in accordance with Article 51, Paragraph 1 of the EU GDPR if you are dissatisfied with the university's handling of your personal information, etc.
- (11) Some of the processes in (2)–(5) mentioned above may be outsourced by the university to a contracted service provider (hereinafter referred to as “contractor”). All or some of the personal information provided by applicants may be provided to the contractor only as needed to perform the tasks for which it has been contracted.

*Note:* The boarding fee described above is as of July 2020. Charges given are subject to change.

### (2) Health and Hygiene

Hokkaido University has a health care center to promote student health and hygiene. It offers routine health checkups as well as everyday health management and advice.

The center also offers diagnoses, health consultations, and counseling by physicians specializing in internal medicine and mental health care.

### (3) Student Support Facilities

The Sapporo campus is home to such facilities as the Clark Memorial Student Center, Chuo Shokudo (cafeteria), Welfare Facility, Faculty of Engineering Cafeteria, and Faculty of Agriculture Cafeteria. It offers convenient daily access to meals, books, supplies, and other amenities.

#### (4) International Student Support

Hokkaido University provides a wide range of services for international students such as Counselling Service, and a Student Support Desk in which experienced international students provide consultation in various languages. Also, the Integrated Science Program has various academic support systems, such as a homeroom and homeroom-teacher system.

#### (5) Part-time Jobs

Those who want to work part-time to help cover their study expenses and other costs must apply for permission to engage in non-specified activities from the Immigration Services Bureau before starting a job. However, applicants are strongly advised against assuming that tuition fees and living expenses incurred while studying on the Integrated Science Program can be largely or completely paid for by working part-time while on the program.
